Menara Kuala Lumpur

Description

The Menara KL Tower in Kuala Lumpur, just like the Petronas Twin Towers, is certainly one of the most recognizable and famous landmarks in Malaysia. Standing 421 meters tall, the tower surpasses the Petronas Twin Towers and provides one of the highest and most impressive views in the world. The view is beautiful by day and even better by night thanks to the glittering lights of the downtown city. The building is located in the Bukit Nanas Forest Reserve (Pineapple Hill). In its rotating restaurant, Atmosphere 360, you can eat or drink tea while admiring the landscape. You will find there a theater, stunning waterfall pools, fast foods and souvenir shops.
